

Grammar Flip It

Instructions

Players

2 – 4

Equipment

1 x score sheet per player (these could be laminated for repeated use)

1 x set of word cards

whiteboard markers or pencils

How to Play

1. Select a version of the game to play. There are two versions to choose from (see top of score sheet).
2. Place the word cards in a pile, face-down, in the middle of the playing space. The youngest player goes first.
3. The first player flips the top word card on the pile. They must then try to match the word on the card with one of the clues on their score sheet. If they find a match, they may write the word next to the clue. If they do not find a match, they may choose to use the 'Free Word' space at the bottom of their score sheet. This space may only be used once throughout the game.
4. Once the player has finished their turn, the word card should be returned to the bottom of the pile in preparation for the next player's turn.
5. Players then continue in turn to flip a word card. Each player must attempt to match their word with a clue on their score sheet. If they cannot make a match and have already used their 'Free Word' space at the bottom of their score sheet, they must forfeit one of the clues by putting an 'X' in the word column, next to the chosen clue.
6. The player who has filled in the most words on their score sheet at the end of the game is the winner.
