

STOP POLLUTING

= THE OCEAN =

How would you feel if you lived in a polluted house? Many of the world's oceans are in a terrible state. Humans must stop destroying our precious oceans with pollution.

There are many things we can do to help reduce ocean pollution. Drink water from the tap; instead of from plastic bottles. Take reusable bags to the supermarket; instead of using plastic ones. Reduce the amount of garbage you make; don't waste unnecessarily. If you see rubbish while you are outdoors; pick it up and dispose of it.

Ocean pollution is everyone's problem. We must work together to save our oceans for future generations.
